

UPS Air Cargo Approved Dangerous Goods Routes Effective 06/11/2024

UPS may revise the Approved Routes listed below periodically. Customer shall review the most recent listing on this website prior to booking each shipment. The following types of Lithium Battery shipments do not require a UPS Agreement for Transport of Dangerous Goods and may move to and from any UPS Gateway: UN3481, PI966, PI967, Section II; UN3091 PI969, PI970 Section II. For clarification on any comments listed herein please contact your Account Representative. Radioactive Material: UPS Air Cargo does not accept any type or quantity of Radioactive material (primary hazard or sub-hazard); including Fissile; Limited Quantity; or Excepted Package shipments. Excepted Quantities: Excepted Quantity shipments are only allowed to and from approved dangerous goods origins and destinations, and do not require an Air Cargo Dangerous Goods contract. All dangerous goods permitted in Excepted Quantities are accepted - UPS Air Cargo class/division restrictions do not apply
